Central Nebraska Inflatables
Pedestal Joust/Bungee Run Combo Game
Operation and Safety Guidelines

SUPERVISION: SUPERVISION IS REQUIRED AT ALL TIMES! Lessee is responsible for appropriate and safe use of the inflatable game. Attendant should not be on the game while supervising. Those supervising the game should do so from the outside of the game.

USE: ABSOLUTELY NO water, food, drink, silly string, gum, cotton candy etc. on the inflatable. A minimum cleaning charge of $60 will be applied for extra cleaning required for one of those substances. REMOVE shoes, jewelry, and anything with sharp parts before entering. No smoking within 100 ft. of the game.

ENTRY: For Jousting: Have each competitor climb onto a pedestal, facing each other. Give each competitor a joust pole. Most competitors find it easy to stand with their knees slightly bent, leaning forward slightly, facing their opponent side on. For Bungee Run: One participant climbs into each lane. Attendant should assist participants in putting on the harnesses. Be sure to tighten their harnesses as tight as possible. Make sure to check that the straps are not twisted around their shoulders or their waist.

PLAY: For Jousting: The winner is the one left on his or her pedestal after the other opponent has fallen. Do not allow intentional head shots. Contestants are not permitted to cross over to opponent’s pedestal. If a person begins to fall, the other combatant must discontinue striking the falling combatant. No one is permitted to place the pole on the mat for balance. For Bungee Run: Each participant will run and stick the baton as far down the lane as possible. Baton attaches to Velcro strip on top of the center wall. Repeat with second set of batons. Participant who places the baton farthest down the lane is the winner!

RECOMMENDED AGE: Recommended age for Jousting and Bungee Run is ages 7 and older.

NUMBER OF PARTICIPANTS: Two participants compete at a time. No one should be on the game besides the two participants while play is happening.

DEFLATION: If inflatable begins to deflate, help participants exit immediately. Then check the following:
1. Check that air tubes from course are still connected to blowers.
2. Check whether blowers came unplugged from extension cord or outlet.
3. Check the circuit breaker/fuses. Try moving to an outlet on a different circuit or reducing the load on that circuit.

WEATHER: Inflatable must be shut down immediately in the presence of lightning, rain or winds exceeding 25 mph. Do not use during rain as surface may become slippery and unsafe. Game can be re-inflated when rain has ended. Simply wipe down surface with towels and the fun may resume.

WARNING: ALL PARTICIPANTS MUST PLAY SAFELY. THERE ARE NO EXCEPTIONS! ALL PARTICIPANTS SHOULD BE IN GOOD HEALTH. PERSONS WITH BACK, KNEE OR JOINT INJURY, RESPIRATORY PROBLEMS, OR WHO MAY BE PREGNANT SHOULD NOT PARTICIPATE. DO NOT ALLOW PEOPLE ON THE GAME WHEN NO ATTENDANT IS PRESENT.
